A straw shoppers actually want to buy

The category does not need another disposable. It needs a product shoppers choose on purpose.

Most straw alternatives solve a disposal problem: SORBOS also creates a retail moment.

Edible straw made **without plastic**, with a flavoured finish.

Individually wrapped
for hygiene, portability and retail display.

Designed for **cold and frozen drinks;** easy to merchandise with mixers, smoothies, partyware and treats.

SORBOS sells as an experience — not simply an alternative to plastic or paper straws.

The product promise

Drink-through performance first. Edible enjoyment next. No plastic straw left behind.

SIP

Designed for cold and frozen beverages

BITE

A sweet, flavoured finish turns the straw into a treat.

ENJOY

Eat it after use—no plastic straw left behind.

A functional product that creates a memorable drinking experience.

PACKAGING BY MARKET

The right pack for the right market.

Existing English-language UK designs and the original Spanish retail range.

UK · ENGLISH

SPAIN · SPANISH

Original Spanish-market retail packs.

Existing UK designs. Final artwork and claims subject to approval.

16 individually paper-wrapped edible straws per pack. Other European countries require the corresponding local language and label validation. A presentation language does not define a single pack for all European markets.

FLAVOUR STRATEGY

Start with three intuitive SKUs with clear drink pairings.

STRAWBERRY

Smoothies · juices · fruity cocktails

LIME

Mojitos · lemonades · soft drinks

CHOCOLATE

Milkshakes · iced coffee · dessert drinks

Additional flavours available: Lemon · Vanilla · Tropical · Ginger · Green Apple · Cinnamon · Neutral · Coffee

More than a straw — a drink add-on

SORBOS belongs where shoppers are already building a moment.

Position it as a small upgrade to occasions shoppers already understand:

At-home entertaining	Cocktails, mocktails and celebrations
Family occasions	A playful, edible addition to drinks
Smoothies & milkshakes	Flavour pairing and visually distinctive presentation
Gifting & partyware	Small footprint, strong shelf impact and seasonal potential
Halal-focused retail	Certified assortment for relevant markets and occasions

Recommended adjacencies: mixers · premium soft drinks · syrups · dessert toppings · partyware · gifting.

Why it earns shelf space

The buyer argument is not sustainability alone. It is differentiation with a technical backbone.

A commodity straw competes on price.
An edible straw competes on experience.

Premium perception	A functional item becomes a consumable treat.
Shelf standout	Colour, flavour and novelty are immediately visible.
Cross-merchandising	Relevant across drinks, mixers, partyware and dessert occasions.
Differentiated format	Edible straw, individual wrapping and cardboard retail pack.
Verified quality	IFS Food Higher Level, Halal-certified range and individual wrapping

Why stock another paper straw when you can offer a straw shoppers remember?

Already visible where drinks are chosen

Real shelf examples show how SORBOS can live naturally beside mixers, soft drinks and drink occasions.

Shelf proof, not just a concept.

Real-world placement helps buyers picture the opportunity in-store.

01 Natural adjacency

Fits next to mixers, tonics, soft drinks and cocktail ingredients.

02 Small footprint

Compact packs create visibility without requiring heavy shelf space.

03 Incremental basket value

Turns a drink purchase into a more memorable consumption occasion.

REAL RETAIL SHELF EXAMPLES

SORBOS is not only a product for the shelf — it helps create the drinking occasion around it.
